

THE REFINED COASTAL RETREAT

BERMUDA

ROSEWOOD

Above the turquoise shallows and blushing shores of Castle Harbour, Rosewood Bermuda is a refined coastal retreat, shaped by the island's natural beauty and timeless charm.

Beyond the cliffs, land gives way to waves of discovery. Cave networks carved over millennia, coral reefs to be explored by snorkel and shipwrecks turned marine sanctuaries. Along the great blue, pink-sand beaches and golf course fairways are an encounter with open horizons.

Here, culture is brought into focus. Symbolic performances by Gombey dancers, guided tours of forts and churches and artist-in-residence programs reveal a legacy of African, European and Caribbean influences. All grounded in local perspective.

Gastronomy begins at sea, where the daily catch is served with coastal ingredients and island-grown plants of loquat, Surinam cherry and Bermuda cedar. Foraging walks and cocktail-making classes offer a flavor-first insight into an edible ecosystem.

Between green grounds and cerulean sea, Rosewood Bermuda is a paradise found.
