

THE VISIONARY DOHA ESCAPE

DOHA

ROSEWOOD

The visionary escape in Lusail – Qatar’s city of the future – is a sculptural landmark and a forward-looking, experience-rich retreat that connects oceanfront calm with a new urban vision.

Rising along the Lusail Marina promenade is a vertical expression of the sea. Elegant interiors of oceanic hues, shell-inspired shapes and nods to traditional dhow boats, the air decorated with the scent of coffee, dates and bakhoor.

Fire and spice shape dining that unites the Gulf and global gastronomy. From hand-pulled Chinese noodles and modern Levantine recipes to Qatari-made ice cream, and bamboo-aged cocktails. A worldwide bounty is brought to the table.

Well-being at Asaya is also rooted in the offerings of the land alongside local wisdom and innovation. Hammams, clay treatments and mindfulness practices are integrative solutions for personal transformation.
