

THE SANCTUARY IN THE SKY

GUANGZHOU

ROSEWOOD

The sanctuary in the sky is a communion with the clouds on the Pearl River Delta. Residing on the top floors of one of Guangzhou's tallest towers, this is a retreat defined by new perspectives.

A vertical canvas where Chinese identity meets modern interpretation. The region's creative legacy expressed in architectural gesture and materiality—bronze, vermilion, silk. While artworks speak to a cultural capital shaped by tradition and transformation.

Duality mirrored in dining. Heritage Cantonese flavors interpreted through innovative technique. Seven distinct dining concepts are a seasonal journey of taste, where provenance and creativity define Guangzhou's evolving gastronomy. Here, every table is a new vantage point of cuisine and city view.

The place where urban energy softens and space opens to the sky invites self-care. Morning tea rituals, sound bathing and traditional Chinese healing therapies are high in setting and grounded in practice.

At Rosewood Guangzhou, experience an unparalleled skyline stay.
