

AN ICONIC PARISIAN LANDMARK

PARIS

HÔTEL *de* CRILLON

A ROSEWOOD HOTEL

An iconic Parisian landmark overlooking the Place de la Concorde, Hôtel de Crillon stands as a monument to French history and modern culture.

Born from the vision of Louis XV, this former royal palace has, for centuries, opened its regal gates to monarchs, artists and luminaries who have shaped the fabric of life in Paris. Behind a Neoclassical façade that has witnessed defining moments of the past now lies a world where legacy and contemporary creativity intertwine.

Here walk creative leaders and tastemakers in spaces that blend heritage and contemporary sophistication-meticulously restored Grands Appartements reimagined by Karl Lagerfeld.

Walls serving as a platform for revered and emerging artists, telling stories through sculpture, painting and photography. Courtyards tucked away from the city, where conversations unfold between guests and its arbiters of taste.

At the heart of Hôtel de Crillon's culinary scene are pioneers boldly shaping contemporary French gastronomy. Each plate is a celebration of seasonal bounty, terroir and the finesse of French classics, elevated to captivate the modern palate. A trusted dining destination for discerning Parisians.

Hôtel de Crillon, the chicest of Parisian palaces, embodies vibrant elegance where history and modernity meet to create an inspiring escape in the City of Light.
